

6th Olive, Olive Oil and Technologies Fair

Olivtech 2016

Meeting Point for Olive and Olive Oil Sector...

*Those who search for the best in Olive and Olive Oil will come together again in Izmir, Turkey, at the **OLIVTECH - Olive, Olive Oil and Technologies Fair**. Between the dates of **27-30 April, 2016**. Anatolia's golden fluid olive oil and olive, the fruit of peace, will turn into an international economic value in **OLIVTECH...***

***OLIVTECH**, where companies in the olive and olive oil production chain from sapling to distribution, from machine to innovation technologies come together with domestic and foreigner buyers, will offer you opportunities for establishing important business connections.*

*Exhibitors will meet with professional buyers from many countries all around the world in **OLIVTECH**, where promotion and buyer activities are carried out in domestic and international target markets unremittingly in parallel with the high targets of the olive oil sector.*

OLIVE AND OLIVE OIL

Turkey has become an important international market in the olive and olive oil sectors with the country's own brands in recent years. Olive and olive oil presents important opportunities for creating new markets especially in Japan, China, India and other countries where Turkish people live today.

Olivtech, where these opportunities will be established as important business contacts by exhibitors and visitors, will open its doors in İzmir for presenting new markets to the international visitors and exhibitors.
